Git/Github/Gitlab

NodeJS   ReactJS

ExpressJS   MongoDB

React Native   Django

Agile   Python

PHP   Javascript

CSS   HTML

Basic Networking

Basic Autocad

Basic Photoshop

LANGUAGES PROFICIENCY

Filipino
Native or Bilingual Proficiency

English
Full Professional Proficiency

EDUCATIONAL HISTORY

Tertiary
Polytechnic University of the Philippines
06/2018 - Present   *Anonas, Sta. Mesa, Maynila, Kalakhang Maynila*

Program
□ Bachelor of Science in Computer Engineering

Post-Secondary
Polytechnic University of the Philippines
06/2016 - 03/2018   *Anonas, Sta. Mesa, Maynila, Kalakhang Maynila*

Program
□ Science, Technology, Engineering, and Mathematics | With Honor

WORK EXPERIENCE

Full Stack Web Development
Freelance
01/2021 - 03/2021   *Manila City*
Tasks
□ I worked as a freelance web developer in a Medic App. I helped in creation of the admin panel of this application. We used Django for API backend and I used React JS for the admin panel front end.

ORGANIZATIONS

CEMIT (College of Engineering Managers of Information and Technology) (06/2019 - Present)
Vice President for Students Services

SEMINARS/WORKSHOPS/CERTIFICATES

Google IT Support Professional (05/2020 - Present)

Fortinet NSE1 & NSE2 Network Associate (05/2020 - 05/2022)

Cisco Introduction to Cybersecurity & Introduction to Packet Tracer (05/2020 - Present)

National Computer Research and Engineering Symposium 2020 (02/2020 - 02/2020)

PROJECTS

Space Shoot
□ A mobile game that has the same concept of Everwing on Facebook's Messenger app.

Juan Tapp | Emergency Application (01/2021 - Present)
□ A mobile app that lets users request for different kind of emergency response. Users can also be registered as medical practitioner to become a responder that will get notified whenever there's a nearby emergency request.

PHL Covid19 Tracker
□ A website that tracks the number of covid19 cases in the Philippines using opensource API.

ACHIEVEMENTS

Polytechnic University of the Philippines Senior High School Honoured Student (03/2018)
